R-PUD PLANNED UNIT DEVELOPMENT DISTRICT

11A.01 PURPOSE. The R-PUD Planned Unit Development District is intended to provide a permissive and alternate zoning procedure for residential development and housing, and in certain instances where specified conditions are met, related convenience commercial uses. The Planned Unit Development District shall be used only when a relatively large landholding under unified ownership is planned and developed as a unit in accordance with an approved overall Preliminary PUD Plan and subsequently detailed Final PUD Plan for each section of the total landholding. The planning and development of the Planned Unit Development shall be carried out in such a manner as to have minimum adverse effect on the natural features and environment of the planned unit tract and its surrounding areas. Planned Unit Development typically features varied setback lines, dwelling types, and "cluster" type site planning whereby provisions for maximum overall "gross" density are established to permit creation of usable common space without jeopardizing the overall intent of the Zoning Resolution or the public health, safety, and welfare.

11A.02 PRINCIPAL PERMITTED USES

11A.021 One-family detached dwellings, including approved modular and manufactured housing.

11A.022 Two-family detached dwellings.

11A.023 Multiple-family dwellings; garden apartments, row dwellings, townhouses.

11A.024 Churches, and other similar places of worship.

11A.025 Neighborhood and community parklands, private parks, and common open space; provided that any principal building or swimming pool shall be located not less than one hundred (100) feet from any other lot in any R District or a recorded residential subdivision.

11A.026 Public utility or railroad structures or uses; subject to the provisions specified in Subsection 6.04.

11A.03 CONDITIONAL USES SUBJECT TO BOARD OF TOWNSHIP TRUSTEES APPROVAL. Subject to the approval of the Board of Township Trustees and the subsequent issuance of a Conditional Use Permit by the Zoning Inspector.

11A.031 Neighborhood Convenience Commercial Uses, including, but not limited to, any local retail business or service establishment, such as a grocery or other food store, drugstore, barber shop, beauty salon, bakery shop, dry cleaning and laundry pickup station, laundrymen, professional office, and the like, supplying commodities or performing services primarily for the residents of the Planned Unit Development, and its surrounding neighborhood; subject to the provisions specified in Section 18.5.

11A.1 DESIGN STANDARDS. Unless otherwise specified below, the design standards for area, coverage, density, yard requirements, parking, and screening for a proposed Planned Unit Development in the R-PUD District shall be governed by the standards of the "R" zoning district(s) most similar in nature and function to the proposed R-PUD District use(s) as determined by the Planning Commission. Exceptions to these standards may be granted by the Board of Township Trustees. Standards for public improvements shall be governed by applicable ordinances and laws of the Township.

11A.12 MINIMUM LOT AREA, MINIMUM LOT AND MAXIMUM DENSITY

11A.121 The tract of land to be developed on a planned unit basis shall be a minimum of five (5) acres.

11A.122 Where the Planned Unit Development includes one-family dwelling units only, the maximum gross density shall not exceed three and one-half (3-1/2) dwelling units per acre.

11A.123 Where the Planned Unit Development includes both one-family and two-family dwelling units, the maximum gross density shall not exceed four and one-half (4-1/2) dwelling units per acre.

11A.124 Where the Planned Unit Development contains a combination of single-family, two-family, and multiple-family dwelling units, the maximum gross density shall not exceed seven (7) dwelling units per acre.

11A.125 Where the Planned Unit Development contains multiple-family dwelling units only, the maximum gross density shall not exceed fifteen (15) dwelling units per acre.

11A.13 YARDS. Subsequent to receiving approval of the R-PUD Preliminary PUD Plan from the Board of Township Trustees, the owner/developer(s) shall establish the front, side, and rear yard setbacks in the detailed Final PUD Plan(s) for the Planned Unit Development. Such setbacks may vary from the regulations of Reily Township relating to the platting of land pursuant to the Ohio Revised Code, Section 711.001 through 735.26 inclusive, subject to the review by the Planning Commission and approval by the Board of Township Trustees.

11A.14 COMMON OPEN SPACE. There shall be reserved, within the tract to be developed on a planned unit basis, a minimum land area of twenty (20) percent of the entire tract for use as common open space. This common open space shall not consist of isolated or fragmented pieces of land which would serve no useful purpose. Included in this common open space may be such uses as pedestrian walkways, parkland, open areas, bridle paths, drainageways, swimming pools, clubhouses, tennis courts, and other lands of essentially open character, exclusive of off-street parking areas. Ownership of this common open space either shall be transferred to a legally established Homeowner's Association or be dedicated to Reily Township and proper legal documents necessary for such transfer or dedication shall be approved by the

Board of Township Trustees. That it is clearly understood that no common open space is to be owned by the developer, that road right-of-ways not be counted as open space, or if they are used in such determination that the minimum area (presently 20%) be increased to 35%.

11A.2 REQUIRED CONTENTS OF THE PRELIMINARY PUD PLAN. The owner/developer(s) are encouraged to engage in informal consultation with the Zoning Inspector and Planning Commission prior to preparing his/her Preliminary PUD Plan, it being understood that no statement or representation by the Zoning Inspector or Planning Commission shall be binding upon the Board of Township Trustees. The owner/developer(s) of the tract of land to be developed on a planned unit basis shall prepare a Preliminary PUD Plan and shall submit four (4) copies of this Preliminary PUD Plan along with an Application for a Change of Zoning District to the Board of Township Trustees for its consideration.

11A.21 The Preliminary PUD Plan shall include the following items:

11A.211 Base mapping of the property showing the physical features (general topography, drainageways, and water bodies, etc.) and existing land uses.

11A.212 Boundaries of the tract to be developed on a planned unit basis.

11A.213 Highways and streets in the vicinity of the tract, and the ingress and egress to the tract.

11A.214 Location of different general land use areas proposed to be developed.

11A.215 Proposed density levels of each residential area.

11A.216 Proposed treatment of existing topography, drainageways, and tree cover.

11A.217 Proposed general location of major vehicular circulation, showing how this circulation pattern relates to the primary and secondary road alignments designated on the Butler County Thoroughfare Plan.

11A.218 Location of schools, parks, and other community facility sites, if any.

11A.219 Time schedule of projected development, if the total landholding is to be developed in stages, or if construction is to extend beyond a two (2) year time period.

11A.3 PROCEDURE. The owner/developer(s) shall submit his/her application for R-PUD zoning, and the Preliminary PUD Plan for the proposed development to the Township Zoning Commission for its review and recommendation. The Township Zoning Commission shall advertise and hold a public hearing in accordance with the procedures outlined in the Ohio Revised Code, Section 303.12. Following the public hearing, the

Township Zoning Commission shall forward the application, Preliminary Plan, their written recommendations, and the report of the County Planning Commission to the Reily Township Trustees, who shall advertise and hold a public hearing and approve, modify, or disapprove the application and Preliminary PUD Plan in accordance with the procedures outlined in the Ohio Revised Code, Section 303.12 and those specified in Section 11A.4 - 11A.5 of this Resolution.

- 11A.31 The Planning Commission may explicitly impose special conditions relating to the Planned Unit Development with regard to the type and extent of public improvements to be installed; landscaping; development, improvement, and maintenance of common open space; and other pertinent development characteristics.

11A.4 CONDITIONS FOR APPROVAL OF THE PRELIMINARY PUD PLAN

- 11A.41 Upon receipt of the report of the Township Zoning Commission, the Board of Township Trustees shall study and review the proposed R-PUD application and Preliminary PUD Plan on the basis of (1) that all requirements have been satisfied, and (2) finding that the following specific conditions are fully met:

11A.411 That the R-PUD District is in conformance with the Land Use Plan for Butler County.

11A.412 That the total density proposed for all of the units of development does not exceed the maximum density allowed for the Planned Unit Development as a whole.

11A.413 That the use(s) proposed will not be detrimental to present and potential surrounding uses but will have a beneficial effect which could not be achieved under other zoning districts.

11A.414 That the areas proposed shall be used only for residential purposes and the usual accessory uses such as garages, storage space, parks, recreation sites, open spaces, and community purposes including churches; and conditionally permitted convenience commercial uses where approved in accordance with Section 18.5 of this Resolution.

11A.415 That the internal streets and primary and secondary roads that are proposed shall properly interconnect with the surrounding existing primary and secondary road network as designated on the Butler County Thoroughfare Plan.

11A.416 That the minimum common open space area(s) has been designated and shall be duly transferred to a legally established Homeowner's Association or has been dedicated to Reily Township as herein provided. 11A.51 If, from the facts presented, the Board of Township Trustees are unable to make the necessary findings, the application shall be denied. Approval of the Preliminary PUD Plan shall be limited to the general acceptability of the land uses proposed, proposed general density levels and their interrelationship, and shall not be construed to endorse precise location of uses, configuration of parcels, or engineering feasibility which are to be determined in the subsequent preparation of the detailed Site Development Plan(s). Approval of the Preliminary PUD Plan shall constitute the creation of a separate R-PUD Planned Unit Development Zoning District. In taking action, the Township Trustees may deny the Preliminary PUD Plan or may recommend approval of said plan subject to specified modifications.

11A.52 At the time of adopting any resolution establishing an R-PUD District, the Board of Township Trustees shall make appropriate arrangements with the applicant which will ensure the accomplishment of the public improvements and reservation of common open space as shown on the approved Preliminary PUD Plan.

11A.53 TIME LIMITS AND EXTENSIONS. The approval of the Preliminary PUD Plan shall become null and void and the land shall revert to its former zoning classification, unless within three (3) years the Final PUD Plan for the first section of the planned unit landholding has been formally approved by the Planning Commission in accordance with the conditions for approval specified in Sections 11A.6 and 11A.7, and unless the final Subdivision Plan, where applicable, shall have been recorded in the Office of the Butler County Recorder.

11A.531 An extension of time limit or the minor modification of the Preliminary PUD Plan may be approved by the Board of Township Trustees. Such approval shall be given upon a finding of the purpose and necessity for such extension or minor modification, and evidence of reasonable effort toward the accomplishment of the Preliminary PUD Plan, and the recommendation of the Planning Commission.

11A.627 Copies of any restrictive covenants that are to be recorded.

11A.63 MAJOR CHANGES. Should the formulation of the detailed Final PUD Plan(s) for any section of the total Planned Unit Development Landholding necessitate a major change in the original Preliminary PUD Plan reconsideration and approval by the Board of Township Trustees shall be required in accordance with the procedures specified in Sections 11A.1 through 11A.62 inclusive. Major changes shall include but not be limited to:

11A.631 An increase in density.

ARTICLE 17

F-1 FLOOD PLAIN DISTRICT

- 17.01 PURPOSE: The intent of the F-1 Flood Plain District is to protect storm water channels so they can carry abnormal flows of water in time of high water and flooding; to prevent encroachment into those areas in which development will materially obstruct the flow of flood water, thereby increasing the magnitude of the flooding; and to prevent the loss of life and excessive property damage in the areas of greatest flood hazard.
- 17.02 DEFINITIONS: As used in Sections 17.021 to 17.101 inclusive.
- 17.021 Channel: A natural or artificial depression of perceptible extent, with definite bed and banks to confine and conduct flowing water either continuously or periodically.
- 17.022 Equal Degree of Encroachment: A method of determining the location of encroachment lines so that the hydraulic capacity of flood plain lands on each side of a stream are reduced by an equal amount when calculating the increases in flood stages due to flood plain encroachments.
- 17.023 Flood: A temporary rise in stream flow or stage that results in inundation of areas adjacent to the channel.
- 17.024 Flood Frequency: The average frequency, statistically determined, for which it is expected that a specific flood stage or discharge may be equaled or exceeded, which is expressed as having a probability of occurring once within a specified number of years.
- 17.025 Floodway Fringe: That portion of the regulatory flood plain outside of the floodway.
- 17.026 Flood Plain: The areas adjoining a watercourse which are expected to be flooded as a result of a severe combination of meteorological and hydrological conditions.
- 17.027 Flood Proofing: A combination of structural provisions, changes, or adjustments to properties and structures subject to flooding, primarily for the reduction or elimination of flood damages to properties, water and sanitary facilities, structures, and contents of buildings in a flood hazard area.
- 17.028 Floodway: The channel of the watercourse and those portions of the adjoining flood plains which are reasonably required to carry and discharge the regional flood.
- 17.029 Obstruction: Any dam, wall, wharf, embankment, levee, dike, pike, abutment, projection, excavation, channel rectification, culvert, building, wire, fence, stockpile, refuse, fill, structure, or matter; which is in, along, across, or projecting into any channel, watercourse, or regulatory flood hazard area;

which may impede, retard, or change the direction of the flow of water, either in itself or by catching or collecting debris carried by such water; or which is placed where the flow of water might carry the same downstream to the damage of life or property.

- 17.030 Reach: Longitudinal segments of a stream or river, which will be affected by the placement of an obstruction in a Floodway or Floodway Fringe.
- 17.031 Regional Flood: A flood which is representative of large floods known to have occurred generally in Ohio and reasonably characteristic of what can be expected to occur on an average frequency in the order of the 100-year recurrence interval.
- 17.032 Regulatory Flood Plain: A watercourse and the areas adjoining a watercourse which have been or hereafter may be covered by the regional flood.
- 17.033 Regulatory Flood Protection Elevation: A point not less than one (1) foot above the water surface profile associated with the regional flood plus any increases in flood heights attributable to encroachments on the flood plain. It is the elevation to which uses regulated by this Resolution are required to be elevated or flood proofed.
- 17.034 Structure: Anything constructed, set, placed, or erected on the ground or attached to the ground, including but not limited to, buildings, factories, sheds, cabins, mobile homes, and other similar items.
- 17.035 Watercourse: A channel in which a flow of water occurs either continuously or intermittently in a definite direction. The term applies to either natural or artificially constructed channels.
- 17.036 Water Surface Profile: A graph showing the relationship of water surface elevation to location, the latter generally expressed as distance above mouth for a stream of water flowing in an open channel. It is generally drawn to show surface elevation for the crest of a specific flood, but may be prepared for conditions at a given time or stage.
- 17.037 Establishment of Regulatory Flood Plain District: The Official Zoning Map delineating the landward limits of the Regulatory Flood Plain District together with all explanatory matter thereon and attached thereto and including the appropriate flood profile is hereby adopted by reference and declared to be a part of this Resolution. The Official Zoning Map will be on file in the office of the Township Clerk.
- 17.038 The flood hazard areas within the jurisdiction of this Resolution are hereby designated as the Regulatory Flood Plain District. The boundaries of this district will be shown on the Official Zoning Map and shall be determined by the water surface profile, and, in the event of a conflict, the water surface profile shall control. Within this district, only those uses allowed as Permitted Uses or Conditional Uses will be permitted. When sufficient information becomes available to designate separate Floodway and Floodway Fringe

Districts, this Regulatory Flood Plain District may be separated into the two districts.

- 17.039 This Resolution will apply to all lands within the jurisdiction of Reily Township shown on the Official Zoning Map or as may be identified by the water surface profile as being located within the boundaries of the Regulatory Flood Plain District.
- 17.040 The regulations in this Resolution will be construed as being supplementary to and do not change any regulations imposed on the same lands or uses permitted by virtue of the land being part of a Zoning District.
- 17.041 The regulatory flood protection elevation and necessary floodway areas will be established by the Board, consistent with the methods specified in Sections 17.042 and 17.062 of this Resolution.
- 17.042 The Board will estimate the discharge of the regional flood which is representative of large floods known to have occurred in this region and which are reasonably characteristic of what can be expected to occur on the particular streams subject to this Resolution. It is in general order of a flood which would be expected to occur on the average of once every 100 years.
- 17.043 The boundaries of the Regulatory Flood Plain District will be determined by scaling distance on the Official Zoning Map and consulting water surface profiles. Where interpretation is needed as to the exact location of the boundaries of the district as shown on the Official Zoning Map, as for example where there appears to be a conflict between a mapped boundary and actual field conditions, the Board will make the necessary interpretation. The person contesting the location of the district boundary will be given a reasonable opportunity to present his/her case to the Board and to submit his/her own technical evidence if he so desires.

17.03 COMPLIANCE.

- 17.031 No structure or land, whether public or private, shall hereafter be used and no structure shall be located, extended, converted, expended, enlarged, or structurally altered without full compliance with the terms of this Resolution and with all applicable county, state, and federal flood plain regulations.

17.04 REGULATORY FLOOD PLAIN DISTRICT PERMITTED USES. Only the following open space uses will be permitted within the Regulatory Flood Plain District, provided they are not prohibited by any other resolution, and, provided further, that they do not require structures, fill, or storage of materials or equipment. In addition, no use will adversely affect the efficiency or unduly restrict the capacity of the channels or floodways of any tributary to the main stream, drainage ditch, or any other drainage facility or system.

- 17.041 Agricultural uses such as general farming, pasturing, grazing, outdoor plant nurseries, horticulture, viticulture, truck farming, forestry, sod farming, and wild crop harvesting.

- 17.042 Industrial-commercial uses such as loading areas, parking areas, airport landing strips.
- 17.043 Recreational uses such as golf courses, tennis courts, driving ranges, archery ranges, picnic grounds, boat launching ramps, swimming areas, parks, wildlife and nature preserves, game farms, fish hatcheries, shooting preserves, target ranges, trap and skeet ranges, hunting and fishing areas, hiking and horseback riding trails.
- 17.044 Residential uses such as lawns, gardens, parking areas, and play areas.
- 17.05 PROHIBITED USES IN FLOODWAY PORTION OF REGULATORY FLOOD PLAIN DISTRICT. The following structures and uses are hereby prohibited in the floodway:
 - 17.051 Structures designed or used for human habitation.
 - 17.052 The storage or processing of materials that are pollutants, buoyant, flammable, poisonous, explosive, or could be injurious to human, animal, or plant life in time of flooding or that have a high flood damage potential.
 - 17.053 Garbage and waste disposal facilities including any further encroachment upon the floodway at existing sites.
- 17.06 CONDITIONAL USES, GENERALLY.
 - 17.061 Uses other than those specified in Regulatory Flood Plain District Permitted Uses are permitted only upon application to the Zoning Inspector and the issuance of a special permit by the Board. The Board shall determine whether the proposed Conditional Use is located within a floodway or floodway fringe area. If it is determined that the proposed use is located within the floodway the provisions of Conditional Uses in Floodway portion of Regulatory Flood Plain District of this Resolution shall apply. If it is determined that the proposed use is located within the floodway fringe, the provisions of Conditional Uses in Floodway Fringe portion of Regulatory Flood Plain District of this Resolution shall apply. All uses shall be subject to standards contained in this Resolution.
 - 17.062 The Board may deny, grant, or conditionally grant a conditional use permit in accordance with the provisions of Conditional Uses in Floodway portion of Regulatory Flood Plain District and Conditional Uses in Floodway Fringe portion of Regulatory Flood Plain District of this article after it:
 - A. Determines the specific flooding threat at the site of the proposed conditional use and determines whether the use is located in a floodway or floodway fringe area by:
 - A. Calculation of water surface elevations and flood protection elevations based upon a hydraulic analysis of the portions of the stream channel and other areas inundated by the regional flood. Flood protection elevations shall be one (1) foot above the water surface elevations of the regional flood

plus the increase in flood heights caused by the proposed development.

- B. Computation of the floodway required to convey this flood without increasing flood heights to an extent which would cause substantial upstream or downstream damage to existing or reasonably anticipated future development. Computation of increases in flood heights caused by any encroachment shall be based upon the reasonable assumption that there will be an equal degree of encroachment on both sides of the stream within that reach. Any increase in flood stages attributable to encroachments on the flood plain of any river or stream shall not exceed 0.5 feet of any one reach or for the cumulative effect of several reaches.

- B. Evaluates the effects of the proposed use upon the public health, safety, convenience, comfort, prosperity, and general welfare in light of the purposes of this Resolution and the standards established herein.

17.07 CONDITIONAL USES IN FLOODWAY PORTION OF REGULATORY FLOOD PLAIN DISTRICT. The following Conditional Uses shall be permitted within the floodway, provided they comply with the provisions of this Section, Prohibited Uses in Floodway Portions of Regulatory Flood Plain District and Conditional Uses, generally, and other standards established in this Resolution, and any conditions attached by the Board to the issuance of the Conditional Use Permit. No temporary or permanent structure, fill (including fill for roads and levees), deposit, obstruction, storage of materials or equipment, or other use will be permitted, which, acting alone or in combination with existing or reasonably anticipated uses, will result in an increase in stage beyond that permitted in Section 17.062-1-B. Where permitted, such fill or other materials will be protected against erosion by vegetative cover, riprap, or bulkheading. Consideration of the effects of a proposed use will be based on a reasonable assumption that there will be an equal degree of Encroachment extending for a significant reach on both sides of the stream. Conditional Uses include:

- A. Uses or structures accessory to open space or Conditional Uses.
- B. Circuses, carnivals, and similar transient amusement enterprises.
- C. Extraction of sand, gravel, and other materials.
- D. Navigational and drainage aids, marinas, boat rentals, docks, piers, wharves, and water measuring and control devices.
- E. Railroads, streets, bridges, utility transmission lines, underground culverts, pipes, and pipelines.

- F. Other uses similar in nature to uses described in Regulatory Flood Plain District Permitted Uses or this subsection which are consistent with the provisions set out in the purpose clause.
- 17.071 Structures (temporary or permanent) accessory to Conditional Uses listed in Section 17.07 are permitted as follows, provided:
- A. They have a low flood damage potential.
 - B. They are constructed and placed on the building site so as to offer the minimum obstruction to the flow of flood waters.
 - a. Whenever possible, structures will be constructed with the longitudinal axis parallel to the direction of flood flow, and
 - b. So far as practicable, structures will be placed approximately on the same flood flow lines as those of adjoining structures.
 - C. They are firmly anchored to prevent flotation which may result in damage to other structures, restriction of bridge openings, and other narrow sections of the stream or river.
 - D. Service facilities such as electrical and heating equipment are placed at or above the regulatory flood protection elevation for the particular area or adequately flood proofed.
- 17.072 Storage of material or equipment other than that prohibited in Section 17.052 may be allowed upon issuance of Conditional Use Permits if not subject to major damage by floods and firmly anchored to prevent flotation or are readily removable from the area within the time available after flood warning.
- 17.073 Public utility facilities and water-oriented industries which must be adjacent to watercourses are permitted provided that the development is located so that it will not significantly alter flood flows, heights, or velocities of the regional flood. Whenever necessary, compensating measures will be required to be undertaken to offset any adverse effects of allowing the use within the floodway and to keep increases in stages of the regional flood within the limits specified in this Resolution.
- 17.074 Structural works for flood control such as dams, levees, dikes, and floodwalls will not be allowed within the floodway except upon issuance of a Conditional Use Permit. In addition, any proposed structural work in the beds of public waters as defined in Section 1521.06, Ohio Revised Code, which will change the course, current, or cross section of the waters will be subject to the provisions of Sections 1521.06 and 1521.07, Ohio Revised Code, and other applicable statutes.
- 17.08 **CONDITIONAL USES IN FLOODWAY FRINGE PORTION OF REGULATORY FLOOD PLAIN DISTRICT.** The following structural or other uses are permitted within the

floodway fringe as Conditional Uses to the extent they are not prohibited by any other resolution and they meet the following applicable standards:

- 17.081 Conditional uses permitted in Conditional Uses in Floodway Portion of Regulatory Flood Plain District.
- 17.082 Residential Uses: Residences, consisting of four (4) units or less, erected, constructed, reconstructed, altered, or moved on fill or otherwise elevated will be located so that the lowest floor, including basement, is at least one (1) foot above the water surface elevation in the profile of the regional flood plus any increase in flood heights caused by the proposed development. Such buildings, structures, or additions shall have a means of ingress and egress to land outside the Regulatory Flood Plain which is at or above the regulatory flood protection elevation. This means of ingress and egress shall be fill or constructed of materials which will withstand the pressures associated with the discharge of a regional flood. The means of ingress and egress shall be at or above the regulatory flood protection elevation and shall be a minimum of fifteen (15) feet wide, or a minimum of five (5) feet wide if equipped either with handrails or other safety features as may be reasonably required.
- 17.083 Nonresidential Uses other than those described in Sections 17.084 through 17.089. New construction and substantial improvements of structure and buildings, except for attendant utility and sanitary facilities which shall be flood proofed to the regulatory flood protection elevation, shall be elevated as provided for in Section 17.082 except in special circumstances where they may be protected to a point at or above the regulatory flood protection elevation.
- 17.084 Commercial Uses: New construction of and substantial improvements to commercial structures and buildings will be elevated as provided for in Section 17.082 except in special circumstances where they may be protected to a point at or above the regulatory flood protection elevation. Accessory land uses, such as yards, railroad tracks, and parking lots may be at lower elevations. However, a permit for such facilities to be used by the general public will not be granted, in the absence of a flood warning system, if the area is inundated to a depth greater than two (2) feet or subject to flood velocities greater than four (4) feet per second upon the occurrence of the regional flood.
- 17.085 For purposes of this Section, residential structures, containing more than four (4) units, will be considered Commercial Uses and the provision of Section 17.084 will apply. Also, such building, structures, or additions shall have at least one (1) means of ingress and egress to land outside the regulatory flood plain in the same manner as set forth in Section 17.082.
- 17.086 Manufacturing and Industrial Uses: New construction of and substantial improvement to manufacturing and industrial buildings, structures, and appurtenant works will be raised to the flood protection elevation or flood proofed and otherwise protected to the floor protection elevation. Measures will be taken to minimize interference with normal plant operations especially for streams having protracted flood durations. Certain accessory land uses

such as yards, railroad tracks, and parking lots may be at lower elevations subject to requirements set out in Section 17.084. In considering permit applications, the Board will give due consideration to needs of an industry whose business requires that it be located in flood plain areas.

- 17.087 Utilities, Railroad Tracks, Streets, and Bridges: Public utility facilities, roads, railroad tracks, and bridges will be designed not to increase the flood stage more than 0.5 feet in any one reach or for the cumulative effect of several reaches and will be compatible with local comprehensive flood plain development plans. Protection to the regulatory flood protection elevation will be provided where failure or interruption of these public facilities would result in danger to the public health or safety or where such facilities are essential to the orderly functioning of the area. Where failure or interruption of service would not endanger life or health, a lesser degree of protection may be provided for minor or auxiliary roads, railroads, or utilities.
- 17.088 Storage of Materials: Materials that, in time of flooding, are buoyant, flammable, explosive, or could be injurious to human, animal, or plant life will be stored at or above the flood protection elevation, flood proofed, or protected by structural measures consistent with the standards set forth herein. Storage of materials likely to cause pollution of the waters, as defined by Ohio law, if subject to flooding, are permitted only if adequate safeguards approved by the appropriate State agencies are provided.
- 17.089 Waste Treatment and Waste Disposal:
- A. No new construction, addition, or modification to existing waste treatment facilities will be permitted within floodway fringe areas unless emergency plans and procedures for action to be taken in the event of flooding are prepared, filed with, and approved by the appropriate State agencies. The emergency plans and procedures must provide for measures to prevent introduction of any pollutant or toxic material into the flood waters.
 - B. There shall be no disposal of garbage or solid waste materials within floodway fringe areas except by issuance of a Conditional Use Permit at sites approved by the Ohio Environmental Protection Agency.
- 17.0891 Flood Control Works: Flood Control Works shall be subject to the provisions of Section 17.074, and the following provisions:
- A. The minimum height and design of any dikes, levees, flood walls, or similar structural works shall be based upon the flood profile of the regional flood confined between the structures subject to the following:
 - a. For jurisdictional areas, the minimum height and design of structural works shall be at least three (3) feet above the elevation of the regional flood.

b. Modifications and additions to existing structural works shall assure that the work will provide a means of decreasing the flood damage potential in the area. Any existing structural work which potentially threatens public health, safety, convenience, comfort, prosperity, and general welfare shall be modified or reconstructed in order to meet the standards contained herein within a period of one (1) year of the effective date of this Resolution.

B. Flood protection elevations and floodway limits which reflect proposed measures for flood control, that will reduce the flood elevation, shall not become effective until such measures have been constructed and are operative. If the proposed measures will increase flood heights, the regulatory flood protection elevations and flood plain limits shall reflect the anticipated increases.

C. Detailed plans shall be submitted to the Board for any new developments placed on the flood plain landward from dikes and levees. The plans must provide for ponding areas or other measures to protect against flooding from internal drainage.

17.09 NONCONFORMING USES. A structure or the use of a structure or premises which was lawful before the adoption of this Resolution, but which is not in conformity with the provisions of this Resolution may be continued subject to the following conditions:

17.091 No Nonconforming Use shall be expanded, extended, replaced, reconstructed, substituted, changed, enlarged, or altered in the floodway.

17.092 No Nonconforming Use in the floodway fringe shall be expanded, extended, replaced, reconstructed, substituted, changed, enlarged, or altered in a way which increases its nonconformity.

Alternative A: Structural alterations or additions to any nonconforming structure, shall not exceed, in the aggregate, over the life of the structure, sixty percent (60%) of its assessed building valuation at the time of the adoption of this Resolution, unless the structure is permanently changed to a Conforming Use.

Alternative B: Structural alterations or additions to any nonconforming structure, shall not exceed, in the aggregate, over the life of the structure, sixty percent (60%) of its ground floor areas at the time of the adoption of this Resolution, unless the structure is permanently changed to a conforming structure.

17.093 If such use is voluntarily discontinued for two (2) years or more, any future use of the building premises shall conform to the Resolution.

17.094 If any Nonconforming Use, created by this Resolution, is destroyed by any means, including floods, to an extent of fifty percent (50%) or more of its assessed value, it shall not be reconstructed except in conformity with the

provisions of this Resolution. The Board may permit reconstruction if the use is located outside the floodway and, upon reconstruction, is adequately flood proofed, elevated, or otherwise protected in conformity with this Resolution.

- 17.095 Repairs and maintenance work required to keep a Nonconforming Use in sound condition may be made.
- 17.096 Any alteration or addition to any Nonconforming Use which would result in substantially increasing its flood damage potential shall be protected by measures pursuant of this Resolution.
- 17.097 Except as provided in Section 17.094, any use which has been permitted as a Conditional Use shall not be considered as a Nonconforming Use.
- 17.098 The Zoning Inspector shall prepare a list of those Nonconforming Uses which have been flood proofed or otherwise adequately protected. The Inspector shall present such list to the Board which may issue a certificate to the owner stating that such uses as a result of these corrective measures are in conformity with the provisions of this Resolution.
- 17.099 Whenever a Nonconforming Use has been changed to a Conforming Use, such use shall not thereafter be changed to a Nonconforming Use.
- 17.100 Uses or adjuncts thereof or accessory uses which are found by the appropriate Common Pleas Court as nuisances shall not be entitled to continue as Nonconforming Uses.
- 17.101 The provisions in this Section of Nonconforming Uses are not intended and shall not be construed to permit greater expansion, extension, enlarging, or replacement than is permitted under any existing Zoning Code Sections relating to Nonconforming Uses.

ARTICLE 18

SPECIAL PROVISIONS

18.114 No space shall be located closer than fifty (50) feet to any other lot in any R District or recorded subdivision, unless wholly within a completely enclosed building or unless enclosed on all sides by a wall or uniformly painted board fence not less than six (6) feet in height.

18.12 OFF-STREET PARKING SPACE.

18.121 Required Automobile Parking Spaces. In all districts, in connection with every industrial business, institutional, recreational, residential, or any other use, there shall be provided, at the time any building or structure is erected or is enlarged or increased in capacity, off-street parking spaces for automobiles in accordance with the requirements herein.

18.122 Sizes and Access. Each off-street parking space shall have an area not less than one hundred sixty (160) square feet exclusive of access drives or aisles, and shall be of usable shape and condition. Except in the case dwellings, no parking area provided hereunder shall be less than one thousand (1,000) square feet in area.

- 19.21 To barns, silos, or other farm buildings or structures on farms; to church spires, belfries, cupolas and domes, monuments, water towers, fire and hose towers, observation towers, transmission towers, windmills, chimneys, smokestacks, flag pole, radio tower, sand and gravel processing plants, masts and aerials; to parapet walls extending not more than four (4) feet above the limiting height of the building.
- 19.22 To places of public assembly in churches, schools, and other permitted public and semi-public buildings, provided that these are located on the first floor of such buildings and provided that for each three (3) feet by which the height of such building exceeds the maximum height otherwise permitted in the district, its side and rear yards shall be increased in width or depth by an additional foot over the side and rear yards required for the highest building otherwise permitted in the district.
- 19.23 To bulkheads, elevator pent houses, water tanks, monitor and scenery lofts, provided no linear dimension of any such structure exceeds fifty (50) percent of the corresponding street lot line frontage; or to towers and monuments, fire towers, hose tower, cooling towers, grain elevators, gas holders, or other structures, where the manufacturing process required a greater height. Provided, however, that all such structures above the heights otherwise permitted in the district shall not occupy more than twenty-five (25) percent of the area of the lot and shall be distant not less than fifty (50) feet in all parts from every lot line not a street lot line.

19.3 AREA REQUIREMENTS.

19.31 Any other regulations of this resolution notwithstanding, in any district, except A-1 and R-1, where public water and sanitary facilities are not accessible the lot area and frontage requirements otherwise specified shall be increased as follows:

19.311 Where both public sewage and public water supply are not accessible:

Minimum Lot Area: ½ acre, 21,780 sq. ft.

Minimum Lot Frontage: 200 ft.

19.312 Where public water supply and sewerage are accessible in any A-1 or R-1 districts, the lot area and frontage requirements specified for these respective districts shall apply as set forth in Article 7 and 8 of this Resolution.

19.32 Deleted November 20, 1997.

19.33 In any A-1, R-1, or R-1A District, a one-family detached dwelling may be erected on any parcel located to the rear of an officially recorded residential subdivision, provided that at least one parcel has been designated for a future street or the otherwise required frontage is provided.

19.4 FRONT YARD MODIFICATIONS.

19.41 In any R District or recorded residential subdivision, where the average depth of at least two (2) existing front yards on lots within one hundred (100) feet of the lot in question and within the same block front is less or greater than the least front yard depth prescribed elsewhere in this Resolution, the required depth of the yard on such lot shall be modified. In such case, this shall not be less than the average depth of said existing front yards on the two (2) lots immediately adjoining or in the case of a corner lot, the depth of the front yard on the lot immediately adjoining; provided, however, that the depth of a front yard on any lot shall be at least ten (10) feet and need not exceed fifty (50) feet.

19.42 In any R District or recorded residential subdivision where the natural grade of a lot within the required front yard has an average slope, normal to the front lot line at every point along said line, of such a degree to provide a driveway with a grade of twelve (12) percent or less to a private garage conforming to the requirements of this Resolution, such garage may be located within such front yard, but not in any case closer than six (6) feet to the street line.

19.5 DOUBLE FRONTAGE LOTS. Building on lots having frontage on two nonintersecting streets need not have a rear yard if an equivalent open space is provided on the lot in lieu of such required rear yard; applicable front yards must be provided, however, on both streets.

- 19.6 REAR AND SIDE YARDS - HOW COMPUTED. In computing the depth of a rear yard or the width of a side yard, where the rear or side yard abuts an alley, one-half (1/2) of the width of the alley may be included as a portion of the required rear or side yard, as the case may be.
- 19.7 SIDE YARD MODIFICATIONS.
- 19.71 Each side yard shall be increased in width by two (2) inches in any R District or recorded residential subdivision for each foot by which the length of the side wall of the building, adjacent to the side yard, exceeds forty (40) feet.
- 19.72 Side yard width may be varied where the side wall of a building is not parallel with the side lot line or is broken or otherwise irregular. In such case the average width of the side yard shall not be less than the otherwise required least width; provided, however, that such side yard shall not be narrower at any point than one-half (1/2) the otherwise required least width, or narrower than three (3) feet in any case.
- 19.73 Width of one side yard may be reduced when authorized by the Board, in the case of a one-family dwelling, to a width, not less than three (3) feet; provided the sum of the widths of the two side yards is not less than the required minimum, and provided the distance between the proposed dwellings and another dwelling, existing or proposed on an adjacent lot is not less than the required minimum sum of the widths of two side yards. Such reduction may be authorized only when the Board finds it to be warranted by the location of existing buildings or conducive to the desirable development of two or more lots.
- 19.74 A side yard along the side street lot line of a corner lot, which lot abuts in the rear, either directly or across an alley, the side lot line of another lot in an R District or recorded residential subdivision, shall have a width of not less than one-half (1/2) the required depth of the front yard on such other lot fronting the side street.
- 19.8 PROJECTION INTO REQUIRED YARDS.
- 19.81 Certain architectural features may project into required yards or courts as follows:
- 19.811 Into any required front yard, or required side yard adjoining a side street lot line -
- A. Cornices, canopies, eaves, or other architectural features, may project a distance not exceeding two (2) feet, six (6) inches.
- B. Fire escapes may project a distance not exceeding four (4) feet, six (6) inches.

- C. An uncovered stair and necessary landing may project a distance not to exceed six (6) feet, provided such stair and landings shall not extend above the entrance floor of the building except for a railing not exceeding three (3) feet in height.
 - D. Bay windows, balconies, and chimneys may project a distance not exceeding three (3) feet, provided that such features do not occupy, in the aggregate, more than one-third (1/3) of the length of the building wall on which they are located.
- 19.812 Subject to the limitations in Subsection 19.811 the above named features may project into any required side yard adjoining an interior side lot line, a distance not to exceed one-fifth (1/5) of the required least width of such side yard, but not exceeding three (3) feet in any case.
- 19.813 Subject to the limitations in Subsection 19.811 the features named therein may project into any required rear yards or into any required outer court the same distances they are permitted to project into a front yard.
- 19.82 Fences, walls, and hedges may be located in required yards as follows:
- A. If not exceeding at any point four (4) feet in height above the elevation of the surface of the ground at such point, such may be located in any yard or court.
 - B. If not exceeding at any point six (6) feet in height above the elevation of the surface of the ground at such point, they may be located in any required rear yard or side yard, provided that on a corner lot, abutting in the rear the side lot line of another lot in an R District or recorded residential subdivision, no such fence, wall, or hedge within twenty-five (25) feet of the common lot line shall be closer to the side street lot line than the least depth of the front yard required on such other lot fronting the side street.
 - C. A fence between lots platted for residential use shall be of approved material and shall be kept in good repair and appearance. The use of barbed wire, electrical, or similar type fences shall be prohibited.
 - D. On any swimming pool, or the entire property on which it is located, shall be so walled or fenced, by approved material and construction, a minimum of forty-eight (48) inches high, so as to prevent uncontrolled access from the street or adjacent properties. Any lighting used to illuminate the pool area shall be so arranged as to deflect the light from adjoining properties.

ENFORCEMENT

- 20.1 ENFORCEMENT BY ZONING INSPECTOR. There is hereby established the office of Zoning Inspector. It shall be the duty of the Zoning Inspector to enforce this Resolution in accordance with the administrative provisions.
- 20.2 FILING PLANS. Every application for a Zoning Certificate shall be accompanied by plans in duplicate, drawn to scale in black line or blueprint, showing the actual shape and dimensions of the lot to be built upon or to be changed in its use, in whole or in part; the exact location, size, and height of any building or structure to be erected or altered; the existing and intended use of each building or structure or part thereof; the number of families or housekeeping units the building is designed to accommodate; and, when no buildings are involved, the location of the present use and proposed use to be made of the lot; and such other information with regard to enforcement of this Resolution. One (1) copy of such plan shall be returned to the owner when such plans have been approved by the Zoning Inspector, together with such Zoning Certificate, as may be granted. All dimensions shown on these plans relating to the location and size of the lot to be built upon, shall be based on actual survey. The lot and the location of the building thereon shall be staked out on the ground before construction is started.

In every case where the lot is not provided and is not proposed to be provided with public water supply and/or the disposal of sanitary wastes by means of public sewers, the application shall be accompanied by a Certificate of Approval by the Health Officer of Butler County and shall indicate the proposed method of water supply and/or disposal of sanitary wastes.

- 20.3 ZONING CERTIFICATE – See Definition on Page 20

- 20.31 It shall be unlawful for an owner to use or to permit the use of any structure, building, or land, part thereof, hereinafter created, erected, changed, converted, or enlarged, wholly or partly, until a Zoning Certificate shall have been issued by the Zoning Inspector. Such Zoning Certificate shall show that such building or premises or a part thereof, and the proposed use thereof, are in conformity with the premises or a part thereof, and the proposed use thereof, are in conformity with the provisions of this Resolution. It shall be the duty of the Zoning Inspector to issue a Zoning Certificate, provided he is satisfied that the structure, building, or premises, and the proposed use thereof, and the proposed methods of water supply and disposal of sanitary wastes, conform with all the requirements of this Resolution.

No permit for excavation or construction shall be issued by the Zoning Inspector, unless the plan specifications and the intended use conform to the provisions of this Resolution.

The Zoning Inspector shall act upon all such applications on which he is authorized to act by the provisions of this Resolution within thirty (30) days after these are filed in full compliance with all the applicable requirements as specified under Subsection 20.2. He shall either issue a Zoning Certificate

within said thirty (30) days or shall notify the applicant in writing of his refusal of such Certificate and the reasons therefor. Failure to notify the applicant in case of such refusal within said thirty (30) days shall entitle the applicant to a Zoning Certificate unless the applicant consents to an extension of time.

- 20.32 Under such rules as may be adopted by the Board, the Zoning Inspector may issue a Temporary Zoning Certificate for a part of a building.
- 20.33 Under written request from the owner or tenant, the Zoning Inspector shall issue a Zoning Certificate for any building or premises existing at the time of enactment of this Resolution, certifying, after inspection, the extent and kind of use made of the building or premises and whether such use conforms to the provisions of this Resolution.
- 20.34 FEES. A Zoning Certificate fee to be charged at a rate to be determined by resolution of the Zoning Commission, and to be reviewed by the Zoning Commission and changed by resolution as the conditions dictate.
- 20.35 The Zoning Inspector shall issue a special Zoning Certificate for the replacement of an existing mobile home with a permanent dwelling. The new permanent dwelling shall be completed within one year of issuance of the building permit and the mobile home shall be removed within six (6) months after occupancy of the new dwelling or the issuance of a Certificate of Occupancy, which ever occurs first.
- 20.36 The Zoning Inspector shall issue a special Zoning Certificate for the replacement of an existing permanent dwelling with a new permanent dwelling. The new permanent dwelling shall be completed within one year of issuance of the building permit and the existing dwelling shall be completely removed from the lot within six (6) months after occupancy of the new dwelling or the issuance of a Certificate of Occupancy, which ever occurs first.
- 20.37 Under certain circumstances, the Zoning Administrator shall have the authority to Issue an Emergency Zoning Certificate. Should a primary dwelling, not to include a mobile home, be rendered uninhabitable by fire, calamity, or natural disaster, being the primary residence of the property owner or of the property caretaker, and should the continuing physical occupancy of that owner or caretaker be necessary to preserve the safety and/or security of personal property and/or livestock located on the premises, a temporary dwelling unit, i.e., mobile home, may be placed on the property. The Emergency Zoning Certificate shall be issued immediately upon application by the property owner or caretaker and written confirmation of uninhabitability of the premises by a knowledgeable source such as the fire chief or an official of the Butler County General Health District. The Emergency Zoning Certificate shall specify the following conditions:
- A. The temporary living structure shall be permitted for a period of one year from the date of the Emergency Zoning Certificate and must meet Butler County General Health District requirements.

- B. The uninhabitable dwelling shall be replaced or restored to habitability within one year from the date of the Emergency Zoning Certificate.
- c. The temporary living structure shall be removed in entirety from the premises within 30 days of completion or occupancy of the replaced or restored residence, whichever occurs first.

20.4 VIOLATIONS AND PENALTIES. It shall be unlawful to locate, erect, construct, reconstruct, enlarge, change, maintain, or use any building or land in violation of any of the provisions of this Resolution, or any amendment or supplement thereto adopted by the Board of Reily Township Trustees. Any person, firm, or corporation violating any of the provisions of this Resolution or any amendment or supplement thereto shall be deemed guilty of a misdemeanor and upon conviction thereof, shall be fined not more than one hundred dollars (\$100). Each and every day during which such illegal location, erection, construction, reconstruction, enlargement, change, maintenance of use continues, may be deemed a separate offense.

20.5 VIOLATIONS - REMEDIES. In case any building is or is proposed to be located, erected, constructed, reconstructed, enlarged, changed, maintained, or used, or any land is or is proposed to be used in violation of this Resolution or any amendment or supplement thereto, the Board of Reily Township Trustees, the Prosecuting Attorney of Butler County, the Zoning Inspector, or any adjacent or neighboring property owner who would be specially damaged by such violations, in addition to other remedies provided by law, may institute injunction, mandamus, abatement, or any other appropriate action, actions, proceeding, or proceedings to prevent, enjoin, abate, or remove such unlawful location, erection, construction, reconstruction, enlargement, change, maintenance, or use.

ARTICLE 21

BOARD OF ZONING APPEALS

21.1 APPOINTMENT. A Board of Zoning Appeals is hereby created. Such Board shall consist of five (5) members who shall be residents of the unincorporated territory of Reily Township included in the area zoned. The terms of all members shall be of such length and so arranged that the term of one (1) member will expire each year. Each member shall serve until his successor is appointed and qualified. Members of the Board shall be removable for nonperformance of duty, misconduct in office, or other causes, by the Township Trustees upon written charges having been filed with the Trustees and after a public hearing has been held regarding such charges, a copy of the charges having been served upon the member so charged at least ten (10) days prior to the hearing, either personally or by registered mail, or by having the same at his/her usual place of residence. The member shall be given an opportunity to be heard and answer such charges. Vacancies shall be filled by the Township Trustees, and shall be for the unexpired term.

21.2 PROCEDURE. The Board shall organize and adopt rules for its own government in accordance with this Resolution. Meetings of the Board shall be held at the call of the Chairman, and at such other times as the Board may determine. The Chairman, or in his/her absence the Acting Chairman, may administer oaths and the Board may compel the attendance of witnesses. All meetings of the Board shall be open to the public. The Board shall keep minutes of its proceedings showing the vote of each member upon each question, or, if absent or failing to vote, indicating such fact, and shall keep records of its examinations and other official actions, all of which shall be immediately filed in the Office of the Township Trustees and shall be a public record.

Three (3) members of the Board shall constitute a quorum. The Board shall act by resolution; and the concurring vote of three (3) members of the Board shall be necessary to reverse any order or determination of the Zoning Inspector, or to decide in favor on an applicant in any matter of which the Board has original jurisdiction under this Resolution, or to grant any variance from the requirements stipulated in this Resolution.

The Board may call upon the County departments for assistance in the performance of its duties, as may reasonably be required.

21.3 APPLICATIONS, APPEALS, HEARINGS, AND STAY OF PROCEEDINGS.

21.31 Applications - When and by Whom Taken. An application, in cases in which the Board has original jurisdiction under the provisions of this Resolution, may be filed by any property owner, including a tenant, or by a governmental officer, department, board, or bureau. Such application shall be filed with the Zoning Inspector who shall transmit same to the Board.

21.32 Appeals - When and by Whom Taken. An appeal to the Board may be taken by any person aggrieved or by any officer of the Township affected by any decision of the Zoning Inspector. Such appeals shall be taken within twenty (20) days after the decision, by filing with the Zoning Inspector and with the Board, a notice of appeal specifying the grounds thereof. The Zoning

Inspector shall forthwith transmit to the Board all the papers constituting the record upon which the action appealed from was taken.

- 21.33 Hearings. The Board shall fix a reasonable time for the hearing of the application or appeal, giving ten (10) days notice in writing to the parties in interest, and giving notice of such public hearing by one publication in one or more newspapers in general circulation in the Township at least ten (10) days before the date of such hearing, and decide the same within a reasonable time after it is submitted. Each application or appeal shall be accompanied by a check, payable to the Reily Township Board of Trustees, in an amount to be determined by the Board of Appeals, to cover the cost of publishing and/or posting and mailing the notice of the hearing or hearings and other expenses in conjunction therewith. At the hearing, any party may appear in person or by attorney. Any person adversely affected by the decision of the Board may appeal to the Court of Common Pleas of Butler County, on the grounds that the decision was unreasonable or unlawful. A notice of appeal shall be accompanied with a check made payable to the Board of Trustees in an amount to be determined by the Board of Zoning Appeals to cover the cost of preparing a transcript of the proceedings. The Court may affirm, reverse, vacate, or modify the decision complained of in the appeal.

- 21.34 Decision of the Board. The Board shall decide all applications and appeals within thirty (30) days after the final hearing thereon.

A certified copy of the Board's decision shall be transmitted to the applicant or appellant and to the Zoning Inspector. Such decision shall be binding upon the Zoning Inspector and observed by him/her, and he/she shall incorporate the terms and conditions of the same in the permit to the applicant or appellant, whenever a permit is authorized by the Board.

A decision of the Board shall not become final until the expiration of ten (10) days from the date such decision is made, unless the Board shall find the immediate taking effect of such decision is necessary for the preservation of property or personal rights and shall so certify on the record.

- 21.35 Stay of Proceedings. An appeal shall stay all proceedings in furtherance of the action appealed from, unless the Zoning Inspector certifies to the Board, after notice of appeals shall have been filed with him/her, that by reasons of facts stated in the certificate, a stay would, in his/her opinion, cause imminent peril to life or property. In such case, proceedings shall not be stayed otherwise than by an order which may, on due cause shown, be granted by the Board on application after notice to the Zoning Inspector, or by judicial proceedings.

21.4 POWERS OF THE BOARD OF ZONING APPEALS.

- 21.41 Conditional Uses, Specified Exception, and Interpretations of Zoning Map. The Board shall have the power to hear and decide, in accordance with the provisions of this Resolution, application, filed as hereinbefore provided, for conditional uses, special exceptions, or for interpretation of the Zoning Map,

or for decisions upon other special questions on which the Board is authorized by this Resolution to pass. An application to the Board for authorization to establish a conditional use or specified exception shall be accompanied by the written consent of the owners of at least fifty-one (51) percent of all properties, except properties devoted to a nonconforming use, within 2,640 feet (one-half mile) measured from the perimeter of the premises where such conditional use or specified exception is sought to be established, enlarged, or extended. In considering an application for a conditional use, a special exception or interpretation of the Zoning Map, the Board shall give due regard to the nature and condition of all adjacent uses and structures, and in authorizing a conditional use or special exception, the Board may impose such requirements and conditions with respect to location, construction, maintenance, and operation - in addition to those expressly stipulated in this Resolution for the particular conditional use or special exception - as the Board may deem necessary for the protection of adjacent properties and the public interest.

21.411 Conditional Uses and Special Exceptions. In addition to permitting the conditional uses and special exceptions hereinbefore specified, the Board shall have the power to permit the following conditional uses and special exceptions:

21.4111 NONCONFORMING USES.

- A. The substitution of a nonconforming use existing at the time of enactment of this Resolution, by another nonconforming use, if no structural alternations, except those required by law or resolution, are made; provided, however, that in an R District or recorded residential subdivision no change shall be authorized by the Board to any use which is not permitted or conditional use in any R District or recorded residential subdivision, and in a B District no change shall be authorized to any use which is not permitted or conditional use in any B District.
- B. The extension of a nonconforming building upon the lot occupied by such building, or on an adjoining lot; provided that such lot was under the same ownership as the lot in question at the time the use of such building became nonconforming and that such extension is necessary and incidental to such existing nonconforming use; provided that the value of such extension shall not exceed in all twenty-five (25) percent of the assessed valuation for tax purposes of the existing building devoted to a nonconforming use, and that such extension shall be within a distance of not more than fifty (50) feet of the existing

building or premises; and provided, further, that such extension shall in any case be undertaken within five (5) years of the enactment of this Resolution. Provided, however, that the Board shall not authorize any extension or enlargement which would result in extending the useful life of a nonconforming building, or which would result in violation of the provisions of this Resolution with respect to any adjoining premises.

- 21.4112 Extension of Use on Border of District. The extension of a use or building into a more restricted District immediately adjacent thereto, but not more than twenty-five (25) feet beyond the dividing line of the two Districts, under such conditions as will safeguard development in the more restricted district.
- 21.4113 Conditional Industrial Uses. Permitting in such parts of any M-2 District, as are more than six hundred (600) feet distant from any R District or recorded residential subdivision, and more than two hundred (200) feet from every other District except an M-1 or F-1 District, any of the industries or uses listed in Section 16.03 and permitting in any M-1 District as an accessory use, any use permitted in an M-2 District as a principal use, as specified in Subsection 15.047. In doing so, the Board may require the installation, operation, and maintenance in connection with the proposed use of such devices or such methods of operation as may, in the opinion of the Board, be reasonably required to prevent or reduce fumes, gas, dust, smoke, odor, water-carried waste, noise, vibration, or similar objectionable features, and may impose such conditions regarding the extent of open spaces between such industries or uses and surrounding properties as will tend to prevent or reduce the harm which might otherwise result from the proposed use of surrounding properties and neighborhoods.
- 21.4114 Temporary Structures and Uses. The temporary use of a structure or premises in any District for a purpose or use that does not conform to the regulations prescribed elsewhere in this Resolution for the District in which it is located, provided that such use be of a temporary nature and does not involve the erection of a substantial structure. A Zoning Certificate for such use shall be granted in the form of a temporary and revocable permit, for not more than a twelve (12) month period, subject to such conditions as will safeguard the public health, safety, convenience, and general welfare.

21.412 Interpretation of Zoning Map. Where the street or lot layout actually on the ground, or as recorded, differs from the street and lot lines as shown on the zoning map, the Board, after notice to the owners of the property and after public hearing, shall interpret the map in such a way as to carry out the intent and purposes of this Resolution. In case of any question as to the location of any boundary line between zoning districts, a request for interpretation of the Zoning Map may be made to the Board and a determination shall be made by said Board.

21.42 ADMINISTRATIVE REVIEW AND VARIANCES.

21.421 Administrative Review. The Board shall have the power to hear and decide appeals, filed as hereinbefore provided, where it is alleged by the appellant that there is error in any order, requirements, decision, grant, or refusal made by the Zoning Inspector or administrative official in the interpretation of the provisions of this Resolution.

21.422 Variances. The Board shall have the power to authorize upon appeal in specific cases, filed as hereinbefore provided, such variances from the provisions or requirements of this Resolution as will not be contrary to the public interest; but only in such cases where, owing to special conditions pertaining to a specific piece of property, the literal enforcement of the provisions or requirements of this Resolution would cause undue and unnecessary hardship.

21.4221 Where by reason of the exceptional narrowness, shallowness, or unusual shape of a specific piece of property on the effective date of this Resolution, or by reason of exceptional topographic conditions, or other extra ordinary situation or condition of such piece of property, or of the use or development of property immediately adjoining the piece of property in question, the liberal enforcement of the requirements of this Resolution would involve practical difficulty or would cause unnecessary hardship - unnecessary to carry out the spirit and purpose of this Resolution - the Board shall have power to authorize a variance from the terms of this Resolution, so as to relieve such hardship, and so that the spirit and purpose of this Resolution shall be observed and substantial justice done. In authorizing a variance, the Board may attach thereto such conditions regarding the location, character, and other features of the proposed structure or use as it may deem necessary in the interest of the furtherance of the purposes of the Resolution and in the public interest. In authorizing a variance with attached conditions, the Board shall require such evidence and guarantee or bond as it may deem to

be necessary, that the conditions attached are being and will be complied with.

21.4222 No such variances in the provisions or requirements of this Resolution shall be authorized by the Board unless the Board finds, beyond reasonable doubt, that all the following facts and conditions exist:

- A. That there are exceptional or extraordinary circumstances or conditions applying to the property in question, or to the intended use of the property, that do not apply generally to other properties or classes of uses in the same zoning district.
- B. That such variance is necessary for the preservation and enjoyment of substantial property rights possessed by other properties in the same zoning district and in the same vicinity.
- C. That the authorizing of such variance will not be of substantial detriment to adjacent property, and will not materially impair the purposes of this Resolution or the public interest.
- D. That the authorizing of such variance will not constitute a change in zoning.
- E. Granting the variance will not adversely affect the health, safety, morals, and welfare of the community.

No grant of a variance shall be authorized unless the Board specifically finds that the conditions or situation of the specific piece of property, or the intended use of said property, for which variance is sought - one or the other or in combination - is not of so general or recurrent a nature as to make reasonably practicable the formulation of a general regulation for such conditions or situation.

21.423 General. In exercising its power, the Board may in conformity with the provisions of statute and of this Resolution, reverse or affirm wholly or partly, or may modify the order, requirement, decision, or determination appealed from, and may make such order, requirement, decision, or determination as ought to be made, and to that end shall have all powers of the officer from whom the appeal is taken.

21.5 WIRELESS AND CELLULAR TELECOMMUNICATION FACILITY.

2.51 Application Requirements

2.511 A preliminary development plan must be submitted to the Board at the time the application for the conditional use permit is submitted. The preliminary development plan shall contain the following:

- A. The location of all of the applicants existing facilities within the Township.
- B. The general location of planned future facilities.
- C. For each location shown on the plan, there shall be listed:
 - a. The type and size of tower at each location.
 - b. The type of equipment located or proposed on each tower.
 - c. The space available on the tower for additional equipment.
 - d. The ground network, if any, served by the tower.
 - e. A site plan showing the parcel on which any existing or proposed tower, antenna or equipment is located.
- D. A site plan for the facility, which is being applied for, shall also be submitted containing:
 - a. The location, type and size of existing and proposed towers,
 - b. antennas and equipment located at the site.
 - c. The location of access easements and parking areas.
 - d. Detailed drawings of the screening plan and related design
 - e. standards.

2.52 General Requirements for all Wireless and Cellular Telecommunication Facilities

- A. The applicant must co-locate except where they can demonstrate by clear and convincing evidence that its telecommunication antennas or equipment cannot be located on any other Wireless and Cellular Telecommunication Facility, in the geographic area to be served, and that all reasonable means have been undertaken to avoid any undue impact caused by the clustering of more than two facilities within two hundred (200) feet of each other. In determining whether a tower antenna can or cannot be located on another communication tower, building or structure, the Board shall consider the space available on the existing structure, the technological practicality and other factors deemed appropriate by the Board.
- B. Wireless and Cellular Facilities must be designed to accommodate such uses including public telecommunication

needs. Appropriate shared parking and access must be provided for co-located facilities on one tower.

- C. Applicants wishing to construct Wireless and Cellular Telecommunication Facilities which have satisfactorily demonstrated to the Board that they are unable to co-locate, are encouraged to locate new towers, antenna or equipment on public property, subject to the restrictions of this Section.
- D. The applicant will hold the Township harmless against all claims, demands, suits causes of action and judgments due to any damage caused by the operation or construction of the facility.

21.53 Design Standards for Free-Standing Towers

- A. All such uses shall be prohibited from locating in any R-district, recorded subdivision, or lot containing a dwelling other than a farm dwelling.
- B. All such uses shall be located not less than two hundred and fifty feet (250) from the right of way of any public street.
- C. All such uses shall be located not less than five hundred (500) feet from any R-district, recorded subdivision, farm dwelling, or lot containing a dwelling.
- D. All such uses shall be located no closer to any lot line than fifty (50) percent of the height of the proposed tower.
- E. The Wireless and Cellular Telecommunication Facility shall be screened by a minimum six (6) foot high solid fence or barrier and continuous evergreen hedge or trees of a size deemed appropriate by the Board. The screening shall be maintained in good condition. Any solid fence or barrier shall contain no advertising, but may contain one small identification sign not to exceed one square foot in size. The applicant is responsible for ensuring that the Telecommunication Facility is kept free of weeds and trash. The outside storage of vehicles or equipment must be contained inside the screened area.
- F. The Telecommunication Facility must be aesthetically and architecturally compatible with the surrounding environment. The Board shall give special attention to areas of architectural and historic significance.
- G. Any Telecommunication Facility shall be removed within one (1) year of ceasing operation. The transfer of ownership of the Telecommunication Facility shall require a new zoning certificate.

- H. The applicant shall provide written documentation that they have obtained approval from all governing agencies charged with the responsibility of maintaining air safety including, the Federal Aviation Administration (FAA), the Federal Communications Commission, the Ohio Department of Transportation (ODOT), or their respective successors.
- I. For the purpose of promoting the public health, safety, and morals the Board of Township Trustees may in accordance with a comprehensive plan, by resolution, after recommendation thereon by the Township Zoning Commission and subject to the procedure provided in this Article, amend, supplement, or change the regulations, district, boundaries, or classification of property now or hereafter established by this Resolution or amendment thereof. Such amendments may be made without the vote of the electors. It shall be the duty of said Zoning Commission to submit its recommendations regarding all applications or proposals for amendments or supplements to the Board of Township Trustees. An amendment, supplement, reclassification, or change may be initiated by passing a resolution therefore by the Board of Township Trustees or by the Zoning Commission on its own motion, or by a verified application of one (1) or more of the owners or lessees of property within the area proposed to be changed or affected by this Resolution.

22.21 Amendments - Procedure to Initiate. Amendments or supplements to the zoning resolution may be initiated by motion of the Township Zoning Commission, by the passage of a resolution therefore by the Board of Township Trustees, or by the filing of an application therefore by one or more of the owners or lessees of property within the area proposed to be changed or affected by the proposed amendment or supplement with the Township Zoning Commission. The Board of Township Trustees shall upon the passage of such resolution certify it to the Township Zoning Commission.

22.211 Hearing Notice. Upon the adoption of such motion, or the certification of such resolution, or the filing of such application the Township Zoning Commission shall set a date for a public hearing thereon, which date shall not be less than twenty (20) nor more than forty (40) days from the date of adoption of such motion or the date of the certification of such resolution or the date of filing of such application. Notice of such hearing shall be given by the Township Zoning Commission by one publication in one or more newspapers of general circulation at least fifteen (15) days before the date of such hearing.

22.212 Hearing Notice - 10 Parcels or Less. If the proposed amendment or supplement intends to rezone or redistrict ten or less parcels of land, as listed on the tax duplicate, written notice of the hearing shall be mailed by the Zoning Commission, by first class mail, at least twenty (20) days before the date of the public hearing to all owners of property within and contiguous to and directly across the street from such area proposed to be rezoned or redistricted to the addresses of such owners appearing on the County Auditor's current tax list or the treasurer's mailing list and to such other list or lists that may be specified by the Board of Township Trustees. The failure of delivery of such notice shall not invalidate any such amendment or supplement. The published and mailed notices shall set forth the time

and place of the public hearing, the nature of the proposed amendment or supplement, and a statement that after the conclusion of such hearing the matter will be referred for further determination to the County Planning Commission and to the Board of Township Trustees as the case may be. Hearings shall be held in the township.

The Reily Township Zoning Commission may proceed as required by law; however, the Reily Township Trustees shall not approve the amendment for one hundred twenty (120) days from the date the notice is received by the Director of Transportation. If the Director of Transportation notifies the Reily Township Trustees that he/she shall proceed to acquire any land needed, then the Reily Township Trustees shall refuse to approve the rezoning. If the Director of Transportation notifies the Reily Township Trustees that acquisition at this time is not in the public interest or upon the expiration of the one hundred twenty (120) day period or any extension thereof agreed upon by the Director of Transportation and the property owner, the Reily Township Trustees shall proceed as required by law.
- 22.24 Township Trustees - Hearing. No amendment or supplement for which such referendum vote has been requested shall be put into effect unless a majority of the vote cast on the issue is in favor of the amendment. 22.26 Fees. Each application for zoning amendment, except those initiated by the Zoning Commission, shall be accompanied by a check payable to the Reily Township Board of Trustees, or a cash payment in an amount to be determined by the Zoning Commission to cover the cost of the publishing, posting, and/or mailing the notices of the hearing or hearings required by the foregoing provisions and/or other expenses in conjunction therewith.
